On-Site Filtration & Service & Hydraulic Repairs

(OFFICE) 706-788-3594 • (FAX) 706-788-3595

ON-SITE HYDRAULIC FILTRATION SERVICES

“Cut costs while promoting your company’s Environmental responsibility. Recycling and Reusing hydraulic fluid is the answer to the Spiraling expense of replacing and disposing Of dirty oil and water glycol.”

C & C Hydraulics is committed to providing you, our clients, with outstanding, no-hassle, hydraulic services.

We offer complete on-site hydraulic filtration services:

- Complete hydraulic systems installation.
- Hydraulic system conversion from petroleum-based oil to water glycol.
- Redo hydraulic power units for leak stoppage.
- On-site hydraulic fluid change and filtration. We filter water glycol, mineral oil, diesel fuel, lube oil, and transmission fluid.
- Hydraulic system repairs and maintenance.
- On-site mobile unit available.
- Consulting

Our on-site services are backed by our own hydraulic rebuild and remanufacturing plant. Depend on us to take care of your plant’s hydraulic filtration and maintenance needs.
